**Annapolis, MD – December 1, 2008** – TSS Software Corporation (TSS), the nation’s largest independent software provider dedicated exclusively to the settlement services industry, has launched FreeHUD-1.com, a Web-based settlement statement program. The site may be used at no cost, and is accessible at [www.FreeHUD-1.com](http://www.FreeHUD-1.com).

FreeHUD-1.com allows users to input directly into the Web site all of the information they would traditionally enter onto a paper HUD-1 form. From there, the settlement professional is able to save the data, or print it. The only requirements for use are a .pdf reader and supported Web browser, such as FireFox 3 or Microsoft Internet Explorer 7. “This is a concept we believe the title and settlement services industry will quickly embrace,” said Barbara Miller, President and Chief Operating Officer at TSS. “With such an emphasis by customers on turnaround time and cost-cutting, the use of an online HUD-1 statement that performs calculations for the settlement agent at no cost should be quickly adopted on a wide scale.”

Miller notes that feedback from users is welcomed and encouraged. “Anything from suggestions on the functionality to insights on the way fee calculations work in that particular user’s jurisdiction will help to optimize user benefits from the site,” she said. “We rely on the feedback of our users to improve our products.”

Flexible and intuitive in design, FreeHUD-1 requires no lengthy downloads or installations. The site is a precursor to the highly anticipated TitleExpressWeb, a Web-based title and settlement suite in development by TSS. The suite is comprehensive, integrating all major elements of the title and settlement process.

**About TSS Software Corporation**
