## HOP Homework

**ALTA Digital Print Ads** (see attached files page 1)

Moved to Canva Teams, you can view the links here: [alta.org/homebuyer/c4nv4-ads.cfm](https://alta.org/homebuyer/c4nv4-ads.cfm)

### Pros

- ALTA member Benefit (links will be invisible until the user logs in)
- Canva files are fully customizable, slogans are separate image file from the background
  - User has the power to make their own advertisements if they choose to
- User can create other sized ads, Facebook posts, etc
- Links will be trackable using google event tracking

### Cons

- User will need to create a username and password for Canva (No single sign-in)
- Will need to upload their logos again (Not connected to ALTApriints)
- Requires some working knowledge of Canva (development of Canva basics is required)

### Homework

- Review ads and offer any input before these are made live
- What other HOP advertisements should we move to Canva?
- Please take the ads for a test drive and let Shawn know the pain points in the process

**ALTApriints advertisements for ALTA.org** (see attached file page 2)

Created ads to slot in when there is an opening in NYCU and TNO

- Need help curating the messages (mine are contrived)
- Do the months of use make sense? Should these be reordered?
