HOW TO EDIT A PDF DOCUMENT

To edit a PDF, open the file you want and select tools. Then click edit text and images. The tools menu may be located along the top menu depending on which version of Adobe you have. This will allow you to edit the document's pictures and text.

To move a text box, click on the box and drag it. But make sure you haven't clicked inside the box, or it won't move. To add text, click inside the text box and type. You can also rotate the text boxes and images by clicking on the text box and holding your mouse over the box until a circular arrow appears. To rotate, click and drag your mouse in the direction you want to spin the box.

To delete a text box or image, simply click on the box, right click, and choose delete from the drop down that appears. These simple tools can help you edit PDFs.
