

THE NATIONAL ALTA REGISTRY

Be Part of the Solution

EFFICIENT. ACCURATE. NEEDED.

Three Things Any Real Estate Attorney Should Know:

Who can request a Real Estate Attorney (REA) listing in the ALTA Registry?

- Individual REAs may request to publish their license info along with the firm or company details used in the ALTA ID
- If you have access to change ALTA records for your firm or agency, you may request an REA listing on behalf of attorneys within your company.

The ALTA Registry provides more accurate data for lenders.

The ALTA Registry assigns real estate attorneys, law firms and title companies with an ALTA ID providing mortgage lenders with a key piece of information they need to verify they are working with the correct business.

The ALTA Registry allows for a more efficient real estate transaction.

Participating in the ALTA Registry allows lenders to spend less money on a full-time employee so they can use those resources elsewhere knowing that a risk management procedure is now in place.
